About Company

 Provided by Customer

Since its incorporation, Great Seal Technology Co., Ltd has introduced sophisticated processing fluid equipments and well-functioned inspection facilities as well as an advanced international management system and computer-aided design in order to provide stabilized product quality and delivery time for our customers. Over the past few years, we have accumulated rich professional skills and field experiences. With amiable and stabilized relationships with customers and upstream suppliers supported by sophisticated skills previously acquired, we hold the rendering of professional-based technical services as our main principle. With innovative technical solutions and product, it is our aim to help the customer solve problems and develop wider business coverage

Our engineers possess professional-based technical knowledge and rich field experiences in aspects of pump and auxiliary systems, in order to provide optimal solutions in due time. Their services will include reasonable design and styling, professional suggestions, detailed product explanation, as well as lifecycle and cost estimation. In addition, based on the agreement reached with the customer, we also provide answers to questions raised by the customer, maintenance and repairs, spare parts inventory, and cultivation services for relevant technical operators.
