**About Company**

☐ Provided by Customer

Established in 2009, Broaden Worldwide Co., Ltd is an ISO-9001 Certified Quality Supplier-Manufacturer of Australian Standard AS3566 self-drilling and self-tapping screws in various coatings for steel to steel to steel to timber applications.

Broaden source wire from CSC Taiwan for all of our production. Our production consists of the three most critical steps of fastener pre-production – Heading, Pinch Pointing, and Threading. Post processes such as Heat Treatment, Plating, and Surface Treatment are outsourced to local professionals in their respective fields.

Annual production capacity is 800 tons per month, which translates to 480 containers per year, or 40 containers per month.

For fast delivery and competitive pricing, all the products from fasteners to collated screws, are all packaged in-house, and goes through another round of quality inspection procedures before shipping out.

Here at Broaden, innovation plays a big part in our organization, and we are constantly in development of combining new material and new manufacturing processes to further improve our products and quality. We also work closely with customers and partners to stay on the cutting edge.

#### Business Registration Information

 Verified by D&B

Registration Date 2009/01/22

Authorized Capital TWD 60,000,000

Paid Up Capital TWD 60,000,000
