Email	Contact Us
Company Website	www.lamination.com.tw
Taiwantrade Website of Company	lamination.en.taiwantrade.com/
Line of Business	Manufacture of Other Electronic Parts and Components Not Elsewhere Classified Design and assembly of progressive stamping tools for stator and rotor core. Progressive stamping service for electrical core used in electric motor. Winding service for brushless motor. Prototyping.
Main Products	Stamping stator rotor lamination Precision progressive stamping die Winding Prototyping
SIC Code	36790000, 33640100
Employee Here	20~49
Employee Total	20~49

About Company ☐ Provided by Customer

HSJCHAO has a proud heritage of family business dating back to 1975. Our product quality and years of experience made us the top choice of our customers. Thus, over the years, we gradually became one of the large-scale stamping vendors in northern Taiwan. We further established an affiliated company that specializes in the production of Shaded-Pole motors and Condenser-Run Motors.

We manufacture a wide range of stamped products - aside from stator and rotor lamination and cores we also manufacture cores for transformer and generator. We are capable of stamping laminations with diameter range of 8mm up to 800mm. To guarantee our product quality, we do everything in-house – from designing the die and building the die up to stamping the final product.

Until the end of 2020, we have built around 775 sets of die and the number is continuously increasing. These dies were composed of “Public Die” and “Private Die”, plus those that we exported to international markets. Hsjchao own Public dies; laminations produced by these dies can be sold to any customer. Our customer own Private dies; Hsjchao guarantees that laminations produced by these dies will only be sold to the owner of the die, Hsjchao will not disclose confidential information related to this die.

We have won great reputation in both domestic and international markets because our reasonable pricing and top quality has attracted buyers to build long-term collaborative relationship with us.
