About Company

☐ Provided by Customer

KOWIn continuously dedicates to the research & development and marketing of various types of plastic recycling machinery for a long period—providing high efficiency recycling machinery and helping customers recycle plastic waste and reproduce into final products—a professional plastic waste recycling and reproducing machinery turn-key plant manufacturer.

Product overview :

Shredder

PET bottle recycling turn-key plant : including crushing, washing, de-watering and extrusion-pelletizing

PET yarn recycling turn-key plant : including crushing, washing, de-watering and extrusion-pelletizing

PP, PE film, injection and bottle recycling turn-key plant : including crushing, washing, de-watering and extrusion-pelletizing

PVC recycling turn-key plant : including crushing, washing, de-watering, textile removing and extrusion-pelletizing

Sheet-making extrusion turn-key plant

Various types of extrusion-pelletizing machine

Non-stop screen changer with backflush system

To fulfill the sincerity and trust to customers, KOWIn sets up a recycling factory itself, which is a turn-key plant, including washing machine, extrusion-pelletizing machine and waste water filtration system. It recycles various types of plastic material, such as waste agricultural films, waste drip tapes, waste nets, waste bottles, waste injection products and others. Our recycling factory has been in operation and production for a long-term period. KOWIn is a machinery manufacturer that designs, manufactures, and exports plastic recycling turn-key plant. The sole company in Taiwan that has its own plastic recycling factory, which operates, produces and demonstrates practically.

Based on the practical production parameter derived from the long-term operation in its recycling factory, KOWIn offers educational training to customers in the sincerity and trust to customer.

Welcome to KOWIn.
