### About Company

☐ Provided by Customer

Seaman Enterprise company was established in 1978 and is a bathroom/kitchen fixtures precision manufacturer with deep technological and development capabilities. 5 core control technologies we had, which are water volume, water pressure balance, water diverter, water temperature, and water metering control; and by combining a complete production line and strict product inspection system, it provides OEM and ODM products for global marketing.

We are committed to the field of green building direction. The thermostatic mixing valve and pressure-balancing valve produced by us could stabilize the water temperature thus reducing waste of water resources. We will continue to improve mechanical equipment, raise testing and production standards, using our professional domestic experiences to respond to the constantly changing demands of the international market.
