About Company

☐ Provided by Customer

Lang Hwang Corporation is a leading manufacturer and exporter of hardware products based in Taichung Harbor, Taiwan. We've been working with large retailers and distributors to supply hardware for kitchens, furniture and bathrooms for over 20 years. We have worked hard to get our products are on the shelves of major DIY chains around the world – and this is something we are very proud of! We are specialists in decorative and industrial tubes and fittings. We make tubes in a variety of diameters, thickness, lengths and materials - such as steel, stainless steel and aluminium. Our products are commonly used for things like wardrobe, kitchen or curtain rails as well as industrial purposes. Other products that we specialize in are grab rails, worktop supports and table legs. We have a large network of smaller manufacturers that we work with to complete projects – we provide plastic, steel and aluminium components for specific OEM or ODM orders. We are also flexible with order quantities and have the facilities and expertise to combine small quantities of several items into one shipment, making us a one-stop-shop for many customers.
