Sun Mines Electrics Co.,Ltd. was founded in 1993 and has been marketing for 29 years with BLOWTAC and PUMPTAC. It is mainly based on the development of green energy products that protect the environment, save energy and reduce carbon, and protect the earth. We have wide range production lines in Taiwan, and successively establish production lines such as air pump, blower, aerator, water pump, mini air compressor etc.

In recent years, we add the solar panels and inverters to the products line, combined with the original products, using sunlight as power source and energy storage to provide customers with a clean and environmentally and friendly power option for wastewater treatment and agricultural irrigation.

Our company also develops a biogas power generation system that provides pig farmers with the conversion of pig manure and urine into electricity. Specialized and customized products and services provide comprehensive green energy system solutions for customers in Taiwan and around the world.

For more than 26 years, Sun Mines Electrics Co.,Ltd. has adhered to the business philosophy of "Quality, Service, Innovation" to produce quality products. We have wide range products line to offer one-stop service for customers to save their time and cost, and provides customized production to meet the customer requirement. Sun Mines and customers create a win-win business model.
